 [Analytics Portfolio](#)

Objective:

Industrial Engineering student at the Egypt-Japan University of Science and Technology (E-JUST) with a strong interest in data analytics, supply chain optimization, operations improvement, and planning. Experienced in using analytical tools to solve logistics and operational challenges, including inventory management, demand forecasting, capacity planning, and performance analysis. Skilled in Python, R, Excel, and Power BI, with a passion for turning data into actionable insights that improve efficiency, enhance planning accuracy, and support data-driven decision-making. Seeking a data-driven role in supply chain, planning, or operations where I can contribute to measurable business impact.

Education:

Industrial Engineering, *Egypt Japan University of Science and Technology* 10/2022 – 01/2027

Relevant Courses:

Alexandria

- Supply Chain Management (SCM), Operations Research I & II (OR), Production and Operations Management (POM), Data Analysis, Systems Dynamics

Professional Experience

Data Analyst (PartTime), *kellogg's Tolaram Noodles* 12/2025 – 02/2026

Cairo

- Prepared analytical reports based on marketing distribution data and campaign performance. Developed interactive dashboards using Excel, Power BI, and Python to track KPIs and support decision-making.

Data Analyst (Internship), *National Telecommunication Institute (NTI)*

11/2025 – 12/2025

Alexandria

What I Learned:-

- Performed data cleaning and Exploratory Data Analysis (EDA) using **Python** and **SQL**.
- Built interactive dashboards and reports using **Power BI, Tableau, and Excel**.
- Enhanced data storytelling and presentation skills through collaborative projects.

Achievements:-

- Completed **5 end-to-end data analysis projects** from extraction to visualization.
- Ranked among the **Top 3 teams** in the program for outstanding project delivery.
- Delivered actionable insights to support data-driven decision-making.

Supply Chain Analyst (Internship), *Fine Hygienic Holding*

07/2025 – 09/2025

Alexandria

What I Learned:-

- Gained hands-on experience in warehouse cycle & ERP (Oracle).
- Applied FIFO/ FEFO and improved warehouse layout utilization.
- Developed KPIs dashboards and enhanced cross-department coordination.

Achievements:-

- Improved first warehouse utilization by **+25%**.
- Freed up **+84 pallets** in second warehouse through inventory analysis.
- Built **provision & warehouse dashboards** for data-driven decisions.

Quality Improvement Engineer (Internship), *Dreem Mashreq Foods*

03/2025 – 05/2025

Alexandria

- Supported production, warehouse, and process improvement initiatives using Lean, 5S, and time & motion analysis.
- Contributed to warehouse organization, inventory accuracy, workflow efficiency, and manpower utilization.

Planning Engineer (Internship), *Al Ezz Dekheila Steel Co. EZDK*

07/2024 – 07/2024

Alexandria

- Acquired foundational knowledge in production planning levels, demand forecasting, scheduling techniques, yield principles, and lean management.

Technical Skills:

Microsoft Office. | Power BI. | MATLAB | Draw.io | Python (Programming Language) |
R (Programming Language) | SQL | Arena Simulation | Vensim Simulation | Gurobi Optimizer

Projects

Smart Optimization of Urban Pharmaceutical Delivery Routes  , <i>E-JUST</i>	10/2025 – 12/2025
Description: Optimization project to improve urban pharmaceutical deliveries using advanced vehicle routing models with time windows and capacity constraints. (VRPSPDTW).	
What Was Done:	
• Built a VRP model with simultaneous pickup & delivery using MILP, Python, and Gurobi • Applied constraints for capacity, time windows, and route feasibility • Analyzed benchmark data and visualized optimized routes	
Results:	
• Reached a proven optimal solution (0% gap) in efficient computation time • Visualized the optimized routes to clearly represent and validate the solution	
Energy Conservation Policy in Egypt (System Dynamics Analysis)  , <i>E-JUST</i>	03/2026 – 04/2026
Description: System Dynamics project analyzing Egypt's energy conservation policy, evaluating impacts on energy, retail, employment, consumer behavior, and e-commerce using Vensim.	
What Was Done:	
• Built a System Dynamics model in Vensim, Simulated 24-month policy impacts. • Analyzed energy, retail, employment, consumer behavior, and e-commerce. • Compared 7 policy scenarios.	
Results:	
• Identified the best-performing scenario. • Proposed data-driven policy recommendations.	

Extracurricular Activities:

TEDxEJUST , <i>Vice Chairman</i>	12/2025 – Present Alexandria
• Formed and structured the Board (BOD) and supervised recruitment across committees • Developed the full season plan with timelines, partnerships, and execution roadmap • Oversaw performance of all committees and ensured cross-team alignment	
IEEE IAS E-JUST SBC , <i>Vice Chairman</i>	10/2025 – Present Alexandria
• Set the season strategy and built the leadership board • Led planning and coordination of technical & professional activities • Developed and executed comprehensive marketing and media strategies for targeted seasonal campaigns, successfully driving Chapter awareness and audience engagement.	
SWUG (E-JUST) , <i>Vice Chairman</i>	07/2025 – Present Alexandria
• Contributed to board restructuring and season execution planning, supporting leadership decisions and cross-team coordination • Built and trained the PR team on communication, sponsorship, and negotiation skills • Developed a structured workflow for sponsor acquisition and external relations	
ESPSA CLub (E-JUST) , <i>Event Manager</i>	11/2025 – 12/2025 Alexandria
• Led planning and execution of a 300+ attendee career event • Coordinated 10 speakers and secured major sponsors • Managed marketing, logistics, and cross-team operations	
Resala Charity Organization , <i>Team leader of Exhibitions committee</i>	06/2022 – 10/2024 Alexandria
• Developed the first annual exhibition plan, designed a team development strategy. • achieved the annual target, organized 20+ exhibitions, and gained experience in inventory management. • Led the PR committee : Developing a one-year strategic plan and enhancing team skills. Secured 4 external event agreements through successful negotiations and partnerships.	

Courses

Supply Chain Management and Analytics  , <i>Unilever Team, Coursera</i>	09/2025 – 09/2025
Six Sigma Yellow Belt Specialization  , <i>Kennesaw State University, Coursera</i>	04/2025 – 04/2025

Languages:

Arabic — Native/Bilingual

English — Fluent
